SUMMARY: Aspiring Flutter Developer with a solid foundation in building cross-platform mobile applications using Flutter and Dart. Skilled in front-end design and responsive layouts, with proficiency in Flutter's widget-driven UI approach. Experienced in using tools like Visual Studio Code and Android Studio to develop interactive and scalable applications. Currently enhancing skills in Android development, with a focus on crafting high-quality, user-centered apps.

TECHNICAL SKILLS:

- **Programming Languages:** Dart, Java, Kotlin, C, C++, Python.
- **Frameworks:** Flutter
- **Tools:** Visual Studio Code, Git, Android Studio
- **Other Skills:** Problem-solving, debugging, responsive design

PROJECTS:

Expense Tracker App

Tech Stack: Flutter, Dart

- **Responsive UI:** Designed a dynamic interface that adapts to various screen sizes.
- **Data Visualization:** Used charts to display expense trends.
- **Theme Adaptation:** Integrated support for light and dark modes based on device settings.
- **Core Features:** Enables users to add, view, and manage expenses with ease.

Shopping List App

Tech Stack: Flutter, Firebase, REST API

- **UI:** Built a responsive interface in Flutter.
- **Real-Time Data:** Integrated Firebase for instant updates.
- **API Integration:** Used REST API for secure data handling.
- **Features:** Add, edit, and delete shopping items with real-time syncing.

Meals App

Tech Stack: Flutter, Riverpod

- **Multi-Screen Design:** Created a multi-screen app with smooth transitions and animations for a seamless user experience.
- **State Management:** Implemented Riverpod for efficient and organized data handling.
- **Core Features:** Allows users to explore meal options, view details, and navigate easily between screens.

EDUCATION:

University of Gour Banga, Malda | Bachelor's Degree In Computer Science | August 2020 – 2023

Araidanga D.B.M. Academy | Higher Secondary in Science (IT Specilization) | 2018 – 2020

CERTIFICATIONS & COURSES:

- Flutter Development
- Android Development
- MERN

Extracurricular Activities

- **Team Leadership:** Led a team of three in a college project to develop a face recognition software from scratch. Coordinated tasks, contributed to core functionality, and ensured project milestones were met effectively.
